**ON SPIRIT GUIDES** "Some survivalists believe that a person has only

*one* spirit guide. But as Illumined Souls tell us, average people on earth, whether they are aware of it or not, each have

about a dozen spirit souls close to them, assisting or trying to assist them in one way or another...We should remember that we ourselves largely determine the caliber of those spirit people who come to us. We should not worship our guides or blindly accept all that they say...But with time and close acquaintance, we may come to have great love and affection for them, a profound gratitude for all they do."
