This review is from: [Spiritual Light: Universal Teachings from the Highest Spirit Realms \(Paperback\)](#)

THE book with more spiritual wisdom and a more effective roadmap for personal evolution than any other I have studied, including most of the ones you think of when I say that. The people who will not consider it thereby show they are not ready for it, so they will have to travel forward more slowly, which is fine with those who produced this masterpiece. If you consider yourself a seeker after Truth, meditate about immersing yourself in it.
